

Window Energy Ratings

Soon there will be changes to the Scottish Building Regulations Part J which may require all new windows in extensions and replacement windows, sold to the domestic market in Scotland, to have a window energy rating of 'B' or above.

AC Yule can help you get your window energy ratings before it becomes a legal requirement.

Take part in one of our workshops we are holding all over Scotland.

Monday 26th April - Inverness

Tuesday 27th April - Aberdeen

Wednesday 28th April - Dundee

Thursday 29th April - Central Belt

Register your interest for these workshops by emailing -
