

Introducing AC Yule's New Kapcell Range of PVCu Windows & Doors

AC Yule's exciting new Kapcell range encompasses a large range of PVCu windows and doors : casement, tilt & turn, fully reversible and vertical slider windows, along with residential, french, patio and bi-fold doors.

tilt & turn

patio doors

residential doors

Decorative options:

- Ovolo bead
- Mock horn sashes
- Arched tops
- Georgian bar internal and external profiles

*'high performance
user friendly window system'*

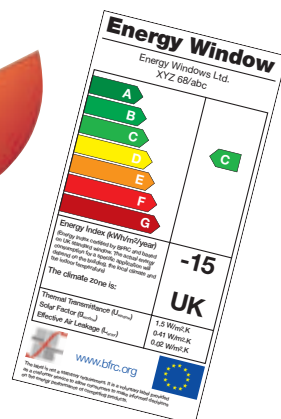

The Kapcell range will also comply fully with current Building Regulations relating to thermal efficiency and energy usage attaining the highest level of Window Energy Ratings (WER's), the scheme developed and administered by the British Fenestration Ratings Council (BFRC).

Key design features to enhance thermal efficiency include the optional use of thermal inserts in lieu of steel reinforcing and exceptional air tightness between opening sash and frame.

Keepheat Super Spacer[®] TriSeal[™] Warm Edge Spacer

Key characteristics:

- up to 950 times less conductive.
- up to 65% warmer at the internal edge of glass.
- up to 2 dB noise reduction.
- up to 70% reduced condensation.

WITH ENERGY SAVING RECOMMENDED WINDOWS
