

Textured Glass

AC Yule provide an extensive range of glass products to suit a variety of performance specifications. Our team of experienced and highly trained work force are able to carry out work to meet your requirements.

Choose from 7 patterns, available toughened or laminated for safety and security. Each pattern provides a different level of privacy suitable for use throughout your home. The level of obscuration is measured on a scale from 1-5.

However you use AC Yule's Textured Glass it is essential for safety reasons that it is suitable for the purpose of use. Our toughened glass meets BS 6206 and our staff will ensure it is correctly specified and installed.
