

### AC YULE DO 60 MINUTE MAKE OVER

Livingston based glass and glazing company AC Yule have recently completed a project for the television programme 60 Minute Make-over.

The project was originally completed at an address in Edinburgh where AC Yule supplied and installed various glass in the form of splashbacks for the kitchen area. Red film was also applied as per the designers instructions. The project involved the fitting of seven pains of glass, four of which where specifically manufactured with cut outs to accommodate electrical sockets. AC Yule staff involved include Malcolm McDonald, Steven McDade and Derek Skene.

The programme is due to be broadcasted in early January 05 and I'm sure AC Yule staff involved will be glued to their TV sets in the early part of 2005.

AC Yule's Livingston branch which employs 40 staff and specializes in the supply of glazing services and also specialist double glazed units along with toughened glass.
