

**AC YULE HIGHLAND DIVISION EXTEND
CURRENT PREMISES.**

FACTORY PREMISES.

AC Yule's Highland division based in Elgin have recently moved into a new factory extension completed earlier this year. The current manufacturing area will increase from 8000sqft to 12000sqft. Along with this investment on new plant for their increased levels of glass and PVCu which will help us continue to improve our service and quality throughout our customer base in Scotland. The Elgin division currently employ 37 staff and specialize in a cross section of area's within the glass and glazing industry including PVCu Window supply, Double Glazed Units, Glass and Glazing service and a Toughened Glass Service.
