

PRESS RELEASE

Issued – 13th May 2010

For immediate release

Collecting the years

Sheila Masson of McDougal and Masson in Stonehaven can't remember how long ago she first got an AC Yule glass calendar but she has been collecting them since. Although some of the first calendars she received from AC Yule have been temporarily misplaced in the store room where the old calendars are kept, Sheila estimates that she has been collecting them for about 20 years. She didn't collect them for any other reason than she 'thought they were bonny' and although she doesn't have one particular favourite she does like the older versions that have pictures of vans and carts. Each year AC Yule sales representative Steve Murdoch gives Sheila two calendars for the office and workshop, however this year he also presented her with a special calendar with a sandblasted message – Presented to Sheila Masson 2010.
